

Quality, Environmental and FSC Policy

Boden & Davies Limited regard the management of Quality, Environmental and FSC issues as an integral part of its operations of collecting and recycling wood and producing and delivering the derived products. This will entail the training and involvement of all employees to meet the company's commitments to Quality, Care of the Environment and FSC.

The company's documented system based on Quality, Environmental and FSC Management System BS EN ISO 9001 and ISO 14001, Waste Management Licence EA WML/50263, FSC rules and current legislation describes the organisation, responsibilities and activities employed by Boden & Davies Limited to control the quality of their service and products, their environmental impacts and source.

Boden & Davies Limited will recycle in a planned and efficient manner in order to meet their supplier, customer, FSC and legislative requirements in terms of control, performance, availability, transportation and price.

Boden & Davies Limited will meet and where possible exceed the requirements of UK legislation and standards with respect to product and service quality, environmental and FSC requirements.

Boden & Davies Limited prevent pollution and will use natural resources in a responsible way, seeking to reduce their consumption, recycling where we cannot reuse, thereby minimising our output of waste and emissions.

Boden & Davies Limited will analyse the quality and environmental impacts of all new processes prior to introduction.

Quality, environmental and FSC performance will be measure by the Management Team who will seek continuous improvement against their defined targets.

Boden & Davies shall not be directly or indirectly involved in the following activities:

- Illegal logging or the trade in illegal wood or forest products
